Improving Access to Tonbridge Station

Public Consultation
31 October - 11 December

Welcome

Tonbridge Station is the busiest station in Kent with over 4 million customers in 2014/15. The ticket office has been improved but the area directly outside the main entrance does not have the capacity, at peak times, to serve the large numbers of people using the space.

KCC has secured £500,000 from the Local Growth Fund, allocated by the South East Local Enterprise Partnership to improve the area outside the station.

Working with our partners, Tonbridge & Malling Borough Council, Network Rail and Southeastern Railway, we are aiming to improve the space available for customers, provide more room for pedestrian movements and to link the design to the recently improved High Street.

The scheme aims to improve the safety of pedestrians, particularly when crossing the roads at peak times and encourage more sustainable modes of travel such as use of the train, buses, cycling or walking.

The proposals are still at an early stage of development so your feedback is essential to help us shape the final design.
