Improving Access to Tonbridge Station
Public Consultation
31 October - 11 December

Proposals

The key proposals are summarised below, more information can be found in the Consultation Booklet or speak to a member of the team.

1. Increase pedestrian space directly outside main station entrance

   • Create a large and welcoming pedestrian space.

   • The bus stop outside the station entrance would be relocated to outside Lidl on Quarry Hill Road.

   • The new space could house cycle stands, tourist information signage, give greater space to the station café customers and provide a meeting place fit for the numbers of people accessing the station or passing through.

   • The six short-stay drop off bays outside the station would remain.
