4. Extend and improve the existing bus stop on West side of Quarry Hill Road (outside Lidl)

- A longer bus stop would be created with space for three buses to stop.
- Existing road space would be used for the bus stops to create a wider pavement and pedestrian waiting area.
- Some of the street furniture would be removed to make the pavement less cluttered.

5. Extend and improve the existing bus stop on East side of Quarry Hill Road (outside Quarry Hill Parade)

- Road space would be used to create a longer bus stop.
- This would increase the space for buses, allowing three buses to stop at a time, which should aid the flow of traffic travelling South.
